### Beskrivning:

#### *Atomos Ninja V+ Pro Kit with SDI-RAW & H265 Pre-Activated*

- Ninja V+ supports up to 4K 120p and 8K 30p and is Pre-Activated for SDI-RAW and H265
- Kit includes AtomX SDI Module, D-Tap Cable and AtomX Sun Hood
- Cross-conversion HDMI<=>SDI with RAW to Video output option
- SDI-RAW supported with; Sony FX6 and FX9, Panasonic Varicam LT and EVA-1, Canon C300MK2 and C500

Ninja V+ builds on the award-winning Ninja V through next-gen chip technology that enables higher frame rates and higher resolutions for ProRes RAW recording over HDMI. Ninja V+ features the same light-weight, compact design as the Ninja V and utilises the same 1000-nit 5" HDR display but now offers support for up to 8K 30p and 4K 120p recording through the HDMI input.

Furthermore, Ninja V+ includes a pre-activated license to enable H265 recording in 10-bit 4:2:2, 8-bit 4:2:2 or 4:2:0 and at XQ, MQ or LQ quality setting. H264 will also be available in a future firmware update.

The Ninja V+ Pro Kit includes professional accessories such as the AtomX SDI Module, AtomX 5" Sun Hood and a D-Tap Coiled Cable in addition to the standard Ninja V+ EVA Case and Neoprene Sleeve accessories.

SDI-RAW is also Pre-Activated enabling support for ProRes RAW recording over SDI from cameras including Sony FX6 and FX9, Panasonic Varicam LT and EVA-1, Canon C300MK2 and C500.

#### *In the Box:*

- 1x Atomos Ninja V+ with SDI-RAW & H265 Pre-Activated
- 1x EVA Style Hard Case, 1x Neoprene Sleeve Case
- 1x AtomX SDI Module, 1x D-Tap Coiled Cable
- 1x AtomX 5" Sun Hood, 1x Master Caddy II
- 1x Battery Eliminator
- 1x AC/DC Power Supply

Specifikationer:
