Beskrivning:

Canon EF 400mm f/2.8L IS III

A fast-aperture super-telephoto lens that delivers a professional performance - ideal for sports, news and wildlife photography

The world's lightest 400mm f/2.8 lens

The optical design of this super-telephoto lens doesn't just deliver superb image quality, it also reduces weight, making this the most portable 400mm f/2.8 ever.

Professional image quality

Achieve exceptional sharpness and contrast right across the frame. Superb for sports, wildlife and news photographers who demand the very best performance.

Shoot handheld

The EF 400mm f/2.8L IS III is the lightest 400mm f/2.8 lens in the world, and features an advanced five-stop Image Stabilizer, making hand-held shooting a reality.

Focus quickly & accurately

Subjects come into critical focus with exceptional speed and precision, even in low light. Fast moving-objects are kept sharp.
