Beskrivning:

Canon EOS C70

The EOS C70 - a compact, versatile camera that is the first to combine the powerful image quality of Canon's Cinema EOS System range with the portability and flexibility of its EOS R line-up. For the first time ever, filmmakers using a Canon Cinema EOS System camera can enjoy the incredible possibilities of the powerful RF lens range.

The EOS C70's design makes it perfect for a broad range of uses including documentaries, productions of all sizes, news gathering and now even social media - thanks to its unique vertical shooting capability. Its size and features enable filmmakers to shoot handheld or on a drone or gimbal. What's more, it offers multiple recording formats to SD cards - including 4K up to 120 fps in 4:2:2 10-bit providing filmmakers with the ability to meet diverse production requirements.

The EOS C70 now features 12-bit RAW recording with Cinema RAW Light up to 645Mbps, truly unleashing the exceptional capabilities of its Super 35mm DGO sensor. Three Cinema RAW Light options are available including LT (Light), ST (Standard) and HQ (High Quality), as well as options for Super 35mm and Super 16mm formats. In addition to existing 4:2:2 10-bit XF-AVC and HEVC recording formats, the EOS C70 now provides even greater workflow flexibility for your production needs.

Canon Cinema EOS C70 Key Features:

- Cinema RAW Light 12-bit
- RF Mount system
- The Cinema EOS C70 uses Canon's new 4K Super 35mm DGO sensor with HDR capabilities
- High frame rate 4K shooting at 120fps with audio recording & DPAF
- Dual SD card slots allowing for simultaneous recording in multiple formats
- Improved Dual Pixel Auto Focus with intelligent tracking, Eye AF and a new touch user interface
- Canon XC protocol enables multi-camera workflow and remote control via Canon RC-IP100 or the Remote Camera Control App
- Compatible with the new Mount Adapter EF-EOS R 0.71x giving users access to the extensive range of Canon EF mount lenses

Specifikationer:

Tillverkare	Canon
Kategori	Video kamera
Objektivfäste	RF (Canon)
Kompatibla objektivfästen	RF (Canon)
Antal pixlar	9.6
Effektivt antal pixlar	8.85
ISO-känslighet	200 - 25.600 L: 100 - H: 102.400
Autofokus	Ja
Sensorstorlek	Super 35
Batteri	BP-A30
Vitbalans	Daylight, Tungsten, Kelvin (2.000K-15.000K, Set A, Set B
Blixtsko	Ja
Bredd	16
Djup	11.6
Höjd	13
Vikt	1190
LCD-storlek	3.5
Slutartid	1 - 1/2.000
Touchskärm	Ja
Lagringsmedie	2xSDXC
HDMI-utgång	Ja
Videoupplösning	4K 120p, 2K 60p, FHD 60p
Videoformat	Cinema RAW Light, XF-AVC, MP4 H.265/HEVC, MP4 H.264
Mikrofoningång	Ja
Hörlursuttag	Ja
USB-ingång	USB 3.2
Inspelningshastighet	120 fps @ 4K
Inbyggt filter	Ja
Inbyggd mikrofon	Ja
