Beskrivning:

Dynacore DS-150SI V-Lock Battery with Internal Charger

Lightweight, compact, high-performance Lithium-ion battery pack. It can be charged by itself without using an external charger. Built-in intelligent IC circuit control, protection for over-charge, over-discharge, over-current, outside circuit short and non-equilibrium an unconventional situation.

The LED indicator will light on from 1 LED to 5 LEDs during charging, and all off when fully charged. The five-step LED power status indicator shows accurately remaining battery capacity. Industry-standard Power Tap & USB output (5V, 2A) can fit on-board camera light and other accessories. Before using the USB output, long-press the LED check button for 3 seconds to activate it.
Environment-friendly: No poisonous elements such as hydrargyrum and cadmium, etc.

Specifikationer:

Tillverkare	Dynacore
Kategori	Batteri
