Beskrivning:

Vespid Prime

Cinematic capturing beyond full frame (46.5m). Compact and potable. Convenient for documentary shooting.

Vigorous

Swift and fast, easy to satisfy different shooting conditions, no matter in a single unit or a whole group. Consistent design of gear, no need to change gear motor while changing lenses.

Your reliable filming partner

Negligible breathing effect, creating an immersive scene. Neutral color, fine and soft skin rendering, represent the actual image. A perfect companion between A-roll and B-roll

Gentle sharpness amd vivid clarity

Appropriate sharpness generates cinematic feeling while expressing organic look and fine details. Appropriate levels of sharpness with beautifully accurate color rendering.
Natural and elegant flare characteristics. Modern and neutral color rendition, Ultra-compact and portable design. Ideal for gimbal and drone use. Full frame compatibility. Corner to corner, ARRI LF open gate coverage.

Pleasing round bokeh

A Perfect Circle - With 16 diaphragm blades, the out of focus areas will be silky smooth with perfectly circular shaped bokeh.
270° focus throw means you can fine tune your focus and achieve critical sharpness.

Balanced

Experiece exceptional build quality that you would expect from a high end cinema lens. Perfectly controlled focus breathing and cromatic abberation.

Harmonious

Witness a new era in motion picture optical design. The ultra-compact Vespid primes deliver incredible performance. The T2.1 maximum aperture ensures shallow DOF and excellent low light ability.
